VEGETINE.

An Excellent Medicine.

SPRINGFIELD, O., Feb. 5, 1877.

This is to certify that I have used VEGETINE, manufactured by H. R. Stevens, Boston, Mass., for Rheumatism and General Prostration of the Nervous System, with good success. I recommend VEGETINE as an excellent medicine for such complaints.

Yours very truly,
O. W. VANDEGRIFT,

Mr. Vandegrift, of the firm of Vandegrift & Huffman, is a well-known business man in this place, having one of the largest stores in Springfield, O.

Our Minister's Wife.

LOUISVILLE, KY., Feb. 16, 1877.

MR. H. R. STEVENS:—

Dear Sir,—Three years ago I was suffering terribly with Inflammatory Rheumatism. Our minister's wife advised me to take VEGETINE. After taking one bottle, I was entirely relieved. This year, feeling a return of the disease, I again commenced taking it, and am being benefited greatly. It also greatly improved my digestion. Respectfully,

MRS. A. BALLARD,
1011 West Jefferson Street.

Safe and Sure.

MR. H. R. STEVENS:

In 1872 your Vegetine was recommended to me, and yielding to the persuasions of a friend, I consented to try it. At the time, I was suffering from general debility and nervous prostration, superinduced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose, and under its persistent use I rapidly recovered, gaining more than usual health and good feeling. Since then I have not hesitated to give Vegetine my most unqualified indorsement as being a safe, sure and powerful agent in promoting health and restoring the wasted system to new life and energy. Vegetine is the only medicine I use, and as long as I live, I never expect to find a better.

Yours truly,
W. H. CLARKE,
120 McKeesport Street, Allegheny, Pa.

VEGETINE.

The following letter from Rev. G. W. Mansfield, formerly pastor of the Methodist Episcopal Church, Hyde Park, and at present settled in Lowell, must convince every one who reads his letter of the wonderful curative qualities of VEGETINE as a thorough cleanser and purifier of the blood.

HYDE PARK, Mass., Feb. 15, 1876.

MR. H. H. STEVENS,

DEAR SIR,—About ten years ago my health failed through the depleting effects of dyspepsia; nearly a year later I was attacked by typhoid fever in its worst form. It settled in my back, and took the form of a large deep-seated abscess, which was fifteen months in gathering. I had two surgical operations by the best skill in the State, but received no permanent cure. I suffered great pain at times, and was constantly weakened by a profuse discharge. I also lost small pieces of bone at different times.

Matters ran on thus about seven years, till May, 1874, when a friend recommended me to go to your office and talk with you of the virtue of VEGETINE. I did so, and by your kindness passed through your manufactory, noting the ingredients, &c., by which your remedy is produced.

By what I saw and heard I gained some confidence in VEGETINE.

I commenced taking it soon after, but felt worse from its effects; still I persevered, and soon felt it was benefiting me in other respects. Yet I did not see the results I desired till I had taken it faithfully for a little more than a year, when the difficulty in the back was cured; and for nine months I have enjoyed the best of health.

I have in that time gained twenty-five pounds of flesh, being heavier than ever before in my life, and I was never more able to perform labor than now.

During the past few weeks I had a scrofulous swelling as large as my fist gather on another part of my body.

I took VEGETINE faithfully, and it removed it level with the surface in a month. I think I should have been cured of my main trouble sooner if I had taken larger doses, after having become accustomed to its effects.

Let your patrons troubled with scrofula or kidney disease understand that it takes time to cure chronic diseases; and, if they will patiently take VEGETINE, it will, in my judgment, cure them.

With great obligations I am

Yours very truly,
G. W. MANSFIELD,
Pastor of the Methodist Episcopal Church.

GENERAL NEWS.

FROM WASHINGTON.

FACTS AND FANCIES.

THE GENEVA AWARD TO BE PAID.

WASHINGTON, Jan. 23.

Judge Foster's report in the fishing case having been received at the department of state, it is the intention of Secretary Evarts to take up the matter and dispose of it at an early day. It is understood our government takes the position that it does not require a unanimous verdict of the commission to make it binding. The award, therefore, will be paid as soon as the accounting officers of the government have the documents prepared.

THE BELGIAN MISSION.

It is now stated that Secretary Evarts has been abandoned his intentions of trying to have Mr. Sanford nominated for Minister to Belgium.

REWARDED.

Mr. Shaughnessy, who was instrumental in protecting Mr. Chisholm in Mississippi, has been appointed to a good territorial office.

A DEMOCRATIC UNPLEASANTNESS.

The repairs of the Baltimore State House cost $100,000 more than the law allowed, and the democrats are in serious trouble on account of it.

SENATOR LAMAR AND THE SILVER BILL.

Mr. Lamar will speak on the Silver bill according to his convictions, and vote as he speaks. It has been rumored that he would speak against the Silver bill and vote for it.

A RAZEE FOR THE DIPLOMATS.

The sub-committee having charge of the diplomatic and consular bill have partially agreed to reduce the salaries of the leading missions. The British, French, German and Russian missions will be reduced from $17,500 to $17,000. A reduction will also be made in the pay of the second and third class missions.

REDUCTION IN THE TREASURY DEPARTMENT.

The temporary roll of clerks in the Treasury department is to be reduced from 140 to 20. The proportion of employes from the South is much larger than from the North, so that 41 of the persons to be discharged are from the Southern states and 31 from the North.

INCIDENTALS.

Members of the subordinate sub-committee of the ways and means committee favor remitting the tax on savings banks.

It is understood that Gen. C. H. Wilcox, ex-confederate, will be nominated for United States Marshal for East Tennessee, for which position Mr. Waldron was rejected.

FROM NEW YORK.

ONE BUSINESS FAILURE INVOLVES MANY OTHERS.

SAVINGS BANKS, FREIGHTS AND SILVER.

NEW YORK, Jan. 23.

Philadelphia advices are to the effect that the Stokes leather trade failure brought down ten other houses there, involving a loss of nearly a million dollars. The suspended firms were mainly engaged in the morocco and goatskin department of the trade. The reason assigned for the Stokes failure is that the firm had to carry paper for these bankrupt houses for years in order to evade the exposure of losses. The trade here and in Boston is not affected by these failures, although some of the leather paper is held in Wall street.

SAVINGS BANK RUN.

There is a slight run in progress at the German Savings bank on Fourteenth street, and $40,000 in cash was withdrawn yesterday. The bank remained open for payments until nine o'clock last night.

WESTERN FREIGHTS.

It was reported in Wall street last night that a telegram had been received from Manager Hickson of the Grand Trunk road, agreeing to discontinue cutting on Western freights, but the report is denied this morning, and it is said no agreement has been reached.

James R. Keene is said to have bought 25,000 shares of Lake Shore yesterday, and the stock loaned out in the street is to be called in today.

SILVER COIN.

here is becoming a drug, and trade dollars are at a discount of ½ per cent. Business men reject any but limited amounts. Other silver coin, being a legal tender, causes less inconvenience. A ready market is found in the south for Mexican silver dollars at 90 to 95 cents.

THE EASTERN WAR.

THE RUSSIANS SOUTH OF ADRIANOPLE.

THE PANIC IN CONSTANTINOPLE.

The Russian Advance.

LONDON, Jan. 23.

Reports of the Russian advance beyond Adrianople are beginning to attract attention, but the wild statements from Constantinople do not command much credit. It was thought that at most only a few Russian cavalry can have been seen in the direction of Gallipoli.

In the house of commons, yesterday, the under secretary for the foreign department said, "The foreign office has received no authentic information that a strong Russian force was

MARCHING ON GALLIPOLI,

but had received reports, concerning the truth of which it had no means of judging, that Russian troops were advancing in that direction."

THE PANIC IN CONSTANTINOPLE

consequent on the occupation of Adrianople and the arrival of thousands of refugees would be sufficient to account for the circulation of such rumors.

Their transmission here may be a new effort to induce the British Cabinet to take some step which would involve a breach of neutrality.

In a similar sense will be construed by those who believe Bismarck wishes to see

ENGLAND INVOLVED IN WAR

with Russia the special despatch from Berlin this morning stating it is expected the Turkish peace delegates will refer the less acceptable points of Russia's conditions to Constantinople; that in this case

THE RUSSIANS WILL ADVANCE;

that Austria seems to be confidentially informed of Russia's determination to advance in the direction of Constantinople if terms of peace are not immediately accepted.

Despatches from St. Petersburg speak of irritation there at the English attitude, and quote utterances of the semi-official press to the effect that

IF THE PRESENT NEGOTIATIONS FAIL

it will be in consequence of England's refusal to recognize a peace concluded without the participation of Europe.

The Crispins' Organization at Lynn.

BOSTON, Jan. 23.

The controversy between the Crispin society and the shoe manufacturers of Lynn, is still maintained, but the former are showing signs of weakening, and it is believed the strike will soon be ended. The manufacturers were strengthened today by the action of another large firm, who joined them in signing the resolutions. The Crispins are greatly discouraged, as their attempts to keep outsiders from filling the places made vacant by the strike have proved futile. Some of the manufacturers are running their shops as usual, with new men. The Crispins have issued an appeal to the brotherhood for financial assistance, and their cause is looked upon as hopeless.

Bullion Coming Over.

LONDON, Jan. 23.

American eagles to the amount of £100,000 sterling were withdrawn from the Bank of England for New York yesterday.

At the shop on Weaver avenue, rear of Ocean House, where we shall be glad to see our many former patrons, and as many new ones as will give us their patronage. But I respectfully decline to do up carriages for parties, who have not paid for having them done up in years past.

I have a great many carriages on hand of most all kinds, which I want to sell cheap; some extra nice phaeton top buggies, which are new, and warranted in every respect, also some nice sleighs and more to arrive, which I want to sell. One two seated lined with plush, also pole and shafts.

Now one word to my friends who owe me, will you try to come up with the cash? if not with that just please come up and sign a note, which it good will help along, as sometimes notes are used to advantage, and none are too poor to sign a note. By that operation we shall be able to settle up accounts, and that will be one step in the right direction. To the many friends who have honored me with their favors I return them my thanks, and still ask a continuance of their favor.

GENERAL ASSEMBLY.

JANUARY SESSION.

SENATE.

WEDNESDAY, Jan. 23.

Senate convened at 11 o'clock, His Excellency the governor in the chair.

The governor presented a communication from the war department regarding the Antietam National cemetery, which was referred to the committee on the judiciary.

Also, a communication from the department of agriculture relative to the exhibition of agricultural products at the coming Paris exposition, which was referred to the committee on corporations.

The account of the committee on repairs of Dutch Island cemetery was referred to the committee on accounts.

Mr. Sunbury of Newport, presented the account of Edward E. Jones, jailor of Newport county, for expenses incurred in the capture of certain prisoners. Referred to the committee on accounts.

Report of pilot commissioners received and ordered communicated to the house.

IN GRAND COMMITTEE.

His Excellency Governor Van Zandt occupied the chair.

Notaries Public and Justice of the Peace were elected.

The following were nominated state beneficiaries at Brown University; Charles E. Bennett, Samuel W. Culver, Jacob Cattner, Edwin L. Thurston, Walter J. Towne, Arthur M. Webster, Henry Dunster, Jr., all of Providence; Paul C. Clifford, of Olneyville; John Cottrell Dyer and Frederick Hayes of Providence, and Walter P. Dick of East Providence.

Charles M. Arnold was elected clerk of the justice court of Woonsocket.

HOUSE.

Mr. Sheffield introduced an act amending chapter 152 of the Statutes, "Of the property of married women, &c," of chapter 154, "Of guardian and ward," and of chapter 175, "Of the administration of testate and intestate estate," which were read, ordered printed, and referred to the committee on the judiciary.

The act is as follows:

It is enacted by the General Assembly as follows:

SECTION 1. The property now held by or which may hereafter come to any married woman in which her husband has no vested interest, shall be the sole, separate property of such married woman, and shall so remain as against her husband, and upon her dying intestate the same shall pass to her heirs-at-law subject only to the like rights of her husband therein that she would have had in the estate of her husband had he survived her and died intestate, and the husband shall have the like right to administer on the estate of such wife, and shall account in the same way therefore as the wife would had to administer upon the husbands estate, and would have been bound to account therefor had the wife survived her husband.

SEC. 2. A widow who resided with her children at the time of the decease of their father, may, in the discretion of the court of probate, be appointed guardian of the person and estate, or of the person and estate of her minor children to the exclusion of the guardian appointed by the will of the father of said children.

SEC. 3. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed.

Mr. Sheffield also introduced an act to limit the indebtedness to be incurred by and the amount of taxes to be imposed upon towns,—which was ordered printed and referred to the committee on judiciary.

It is as follows:

AN ACT to limit the indebtedness to be incurred by and the taxes which may be imposed upon towns.

It is enacted by the General Assembly as follows:—

SECTION 1. The outstanding notes, bonds, and contracts of towns and cities shall be paid and fulfilled according to the tenor thereof.

SEC. 2. After the passage of this act no town or city shall incur any debt in excess of three per centum of the taxable property of such town or city, but the giving a new note or bond for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt is exempted from the provisions of this section.

SEC. 3. No town or city shall assess its ratable property in any one year in excess of one per centum of its ratable value, except for the purpose of paying the indebtedness of such town or city, or the interest thereon.

Mr. Burdick of Newport, gave notice of his intention to introduce an act amending chapter 80 of the Statutes, "Of Dogs."

Mr. Colt of Bristol, introduced a resolution referring so much of the governor's message as relates to the state house, to a joint select committee.

This resolution had a very simple look, on the face of it, but it furnished material for occupying the attention of the house for nearly the balance of the morning session.

FOREIGN NEWS.

ENGLAND ASSUMING A DECIDEDLY WARLIKE ATTITUDE.

THE BRITISH FLEET ORDERED TO TURKISH WATERS.

The Russian Army Steadily Advancing And Victorious.

LONDON, Jan. 24.

The British fleet has been ordered to Besika bay. The English Government has determined to protect Gallipoli and Constantinople. If the situation does not change tomorrow, a money vote by Parliament will be asked for. Sir Stafford Northcote was today waited upon by a private deputation of conservatives, and during the conversation which followed regarding the Eastern question the Chancellor informed the deputation, which consisted of members of Parliament, that the Government intended to protect both Constantinople and Gallipoli, and unless things changed the Government might ask a money vote on Thursday.

The transmission to England of the reports of Russian successes may be a new effort to induce the British cabinet to take some step which would involve a breach of neutrality. In a similar sense will be construed by those who believe that Bismarck wishes to see England involved in a war with Russia, the special despatch from Berlin this morning, stating that it is expected that the Turkish peace delegates will refer the less acceptible points of Russia's conditions to Constantinople; and that in this case the Russians will advance: that Austria seems to be confidentially informed of Russia's determination to advance in the direction of Constantinople if terms of peace are not immediately accepted.

Despatches from St. Petersburg speak of an irritation existing there at the English attitude and quote the utterances of the semi-official press to the effect that if the present negotiation fail it will be in consequence of England's refusal to recognize a peace concluded without the participation of Europe.

The Post states, in official form, that a deputation of Conservative members had an interview with Sir Stafford Northcote, Chancellor of the Exchequer, on Tuesday to urge upon the government the necessity of taking up an attitude of earnest observation in view of the dangerous delays to the armistice interposed by Russia. The Chancellor admitted the gravity of the situation, and assured the deputation that the government would continue to adhere to its policy of conditional neutrality.

MORE ABOUT BILLS.

THANKS ARE DUE to many of those who received bills from me in the early part of the month, for the prompt manner in which they paid them; some who paid so promptly did not do so from the abundance of their means but rather that being possessed of fine natures and knowing that in buying they had accepted the terms on which the articles bought were sold, they had carefully regulated their expenditures so as to meet their obligations when due. All honor to them and their kind; may their numbers increase! There still remains a long list of unpaid bills, the holders of which can do me a great favor by paying. The money received is not wanted to stow away in barrels or banks, but is wanted to pay debts that were contracted on the supposition that those owing me were to pay at this especial time. Who will help to do it? Let no one feel that what they owe is too small to be of consequence for all help, and all are gladly received.

The Newport Journal is published at the same office every Saturday morning, and contains a selection of the best matter in the Daily, including editorial discussions of the topics of the week, literary miscellanies, and at least one good story, the latest markets and a complete and comprehensive summary of the news,—local and general. The Journal is a large, 32 column paper, and contains a large amount of reading matter that is valuable to readers in town or country who desire a good Newport paper, but who do not take a daily from this city.

Complaints regarding the irregular or improper delivery of either paper should be sent to the office at once.

SUBSCRIPTION RATES.

The Daily News, $6 per annum, or 12 cents a week, payable to carrier.

The Newport Journal. Terms $2 00 a year. A discount of 50 cents is made when the WHOLE YEAR is paid STRICTLY IN ADVANCE. These terms are invariable.

ADVERTISING RATES.

Ordinary advertisements, $1 a square, for the first insertion, and 25 cents for each continuance. Ten lines or less, in this type, make a square. Advertisements in reading matter, are charged for, at 50 per cent. extra, and are subject to editorial revision. A discount on these rates is allowed on all advertisements ordered in the daily for one week or longer. Funeral notices 50 cents each. Yearly advertisers are limited to their immediate business and are allowed twenty five changes a year. No gratuitous advertising for any object. The circulations of the News and Journal being necessarily distinct, an advertisement inserted in both papers will reach entirely different sets of readers. As further inducement for advertisers to use both the News and Journal, a liberal discount on the combined rates is made.

PRINTING.

Connected with the News is a large and well appointed job printing office. All orders for work in this department will be promptly filled, and at reasonable prices. The patronage of the public is respectfully solicited.

TO OUR PATRONS.

The publisher of the Newport Mercury has taken occasion, publicly and privately, to misrepresent the circulation of our papers as well as his own. In justice to ourselves and our advertisers, we have publicly denied the truthfulness of his statements and made a proposition to submit the proofs to a disinterested and impartial tribunal, which he declines, though persisting in his false statements. He probably refuses to exhibit his books in comparison with our own for the following reasons:

1.—They will show that he has not one half the circulation which he persistently and publicly claims.

2.—That we have more than three times the circulation that he ascribes to us, both in the city and county of Newport.

3.—That his circulation is less now than formerly and has been subject to a steady decline.

4.—That ours has regularly increased and is now larger than ever before.

THURSDAY, JANUARY 24, 1878.

THE DAY.

The Chinese question begins to loom up in congress.

George Rignold appears in Henry V. in Providence this evening.

Gold was quoted at 101¼ yesterday. Are we not almost ready to resume?

It is agreed that the vote on Senator Mathews silver bill shall be taken tomorrow.

The Boston Herald, in speaking of the new High School building, thinks it almost fine enough for an insane asylum.

Dr. James H. Taylor of this city was one of the representatives of Rhode Island's druggists at the professional Boston dinner on Tuesday.

Great Britain talks war with increased vigor. The Englishmen had better mind their own affairs and let Russia and Turkey settle their little differences in their own way.

Now that members of the General Assembly are to have two daily papers each, during the session, it is thought the sitting may be lengthened as all will desire to make the most of the privilege.

The marriage of King Alfonso was celebrated last night with brilliancy at Wormley's Hotel, the residence of the Spanish Minister and Madame Mantilla. 500 cards of invitation were issued to gentlemen with ladies.

The publisher of the Philadelphia Times knows how to get up a first-class Almanac as well as a good newspaper. The issue for 1878, just received contains a large amount of valuable information of national interest. Its tables of election returns are especially worthy of preservation.

Senator Blaine though not favoring the Bland bill is in favor of the remonitization of silver and he has introduced a bill to that effect. He has, like Senator Lamar, been, heretofore, counted on the other side. The "silver breeze" is getting to be almost a gale that sweeps all before it.

At the memorial service to the late Samuel Bowles at Springfield, Mass., yesterday afternoon, remarks appropriate to the occasion were made by Murat Halstead, Charles Dudley Warner, Dr. J. G. Holland, General Joseph R. Hawley and others. Letters were received and read from Senator Dawes, Horace White, Charles Francis Adams, Secretary Schurz and Governor Hubbard of Connecticut.

Senator Blaine has a grudge against Massachusetts and is evidently familiar with the dark spots in her history. It was unwise in him to attack the Bay state in the senate so fiercely as he did, and it is equally foolish for the Massachusetts people to be so sensitive over it. As a matter of fact that state has not always been above reproach, notwithstanding the Boston disposition to claim that it contains about all the brains and refinement of the nation. Perhaps it is well enough that this bubble of conceit should be slightly punctured now and then, and Mr. Blaine's criticism may do no harm.

Mrs. E. J. Smith, who has labored so successfully in the revival meetings held in the First Methodist Episcopal Church, has returned to her home in Providence. During her visit to Newport she has won many warm friends who have been not only pleased but greatly benefitted by her labors. As a singer of Gospel Hymns she is far superior to most of those who conduct this part of the work, and her public addresses have shown her possessed of much ability and tact. It is expected that she will return shortly upon invitation of the Reform Club, when she may also resume her labors in the church where she will be heartily welcomed.

Mr. O. H. Burdick of this city has made a movement in the General Assembly against barking dogs. He proposes the passage of a bill which provides as follows:

"Whenever any dog shall, by habitual barking in the night time disturb or annoy any person residing or being in the neighborhood of such dog, after notice of such annoyance or disturbance if the owner or keeper do not forthwith abate the nuisance, he shall upon conviction of owning or keeping such dog be fined therefor $20; and it shall be lawful for any person so annoyed and disturbed by said dog, or his servants, agents or employers, or any constable or other officer appointed to enforce the dog law, to enter upon the premises of such owners or keeper, or elsewhere, to kill such dog."

It is not often that Narragansett Bay is swept by fiercer winds than whistled across the waters yesterday. It was intensely cold, also, and the passage for steamboats and sailing-vessels was anything but comfortable. The steamer Eolus on her afternoon trip from Wickford broke one of her chains while nearing Newport, and was obliged to turn back to Conanicut Park where her passengers were taken off by the Providence steamer and brought to their destination. The latter boat came down on the easterly side of Prudence on account of the gale, and had a rough passage in crossing the bay to the Park. It was considerably later than usual when she arrived at her wharf in this city. The Eolus returned to Newport later in the evening.

The action of the Newport school committee in regard to compulsory education meets with generous support among the friends of public schools throughout the state. It was thoroughly endorsed by the teachers and school officers of the state and concurrent action has already been taken in several towns. The chief opposition will come from those manufacturers who desire to employ children of all ages in their mills. The school committee of Woonsocket has taken action as follows:—

Resolved, That the president and clerk of the school committee petition the General Assembly at its present session to so amend the laws relating to the compulsory education of all the youth of the state in sound health, between the ages of seven and fifteen years, as to make their thorough enforcement practicable.

Resolved, That the president and clerk of this school committee petition the General Assembly at its present session, to take such action as shall be necessary to ensure the establishment of an industrial school, or other proper institution, to which truants and absentees from school may be committed under the statutes.

The London Sanitary Record of Jan. 4th, in its leading article discusses the new developments as to the effect of the delivery of the sewage of London into the Thames, 14 miles below the bridge. Until now this has been regarded as one of the grand achievements of Modern Engineering. The work cost over $20,000,000. The indications now are that it is,—so far as its main purpose, the purification of the Thames is concerned,—a grand failure. Our Boston neighbors may, with advantage, give grave consideration to this case before beginning their Neponset Tunnel. We ourselves may find food for reflection in the following extract from the article in question:

"Many watering places have availed themselves of their proximity to the sea to cast their sewage into it in the vain hope of thereby getting rid of it. No greater mistake could have been made, as the experience of many fashionable watering places proves. Owing to the sewage having a higher temperature and a lower specific gravity than sea-water, it floats and does not mix, and becomes diluted, as is ignorantly imagined. The sea water acts chemically on the sewage and sulphurated hydrogen is liberated, producing the well known offensive smell of rotten eggs. The decomposing mass is tossed about by every tide, and returns its pollution either in the form of offensive gases wafted from the sea, or deposits the solid part along the coast to evolve in its own good time, smells which drive away any rash seekers after either health or the treasures of the deep. Visitors to many of our fathionable watering places have the evidence of their olfactory nerves in confirmation of this, and places where these evils are known to exist will in the course of time have an evil reputation, and will be avoided by those on whom they depend for their existence."

General Williams made a short speech after his election as United States Senator in Kentucky in which he said:

"The great democratic party has a duty to perform in the pacification of the two sections and the bringing of the government back to constitutional limits. I am a democrat because it is the party of the people. The constitution and the Union is the watchword of the grand old party. Our Constitution is the grandest of the monuments of our land, and I thank God that it is still that of a united people. Though the beauty of its column is marked by the sword and rent by cannon balls, still it lifts its dome to Heaven, and still stands in all the grandeur with which it came from the hands of its architects, our forefathers; and if we are true in our duty to it and to our country it will still stand a thousand years and will be a habitation for our children and our children's children."

Two of the children's toys produced abroad this year are curious ones. One, the Feu an Papillon, is a pretty doll, seated in a chariot to which a large butterfly is harnessed. By means of a spring, which can be wound up, the butterfly is moved and the vehicle rolls as if it was towed by the insect with the glittering wings. The other, the Bonhomme Pneumatique, in a little personage, articulated, to which is attached an india-rubber tube, terminated by a pocket of the same material. In pressing the ball the air is forced into the interior of the figure, which immediately agitates the head, arms and legs to caper about like one possessed. This certainly supplants the old figures whose strings we used to pull.

The courage and fact shown by Dr. F. Mildebrant, the African explorer, is illustrated by some reminiscences of his work given by him in the lecture before Berlin Georgraphical Society. In one instance he was obliged to play the part of a magician, and utilized his official dignity by having specimens collected of all the different animals and plants in the neighborhood. Over the collection incantation were pronounced, so that it passed for a "fetish," before being carefully packed away. On another occasion, when he was attacked by natives, levelled his camera at them as if it were a weapon of war, and charged upon them with it. They retreated in dismay.

General Grant has sent home a package of the gifts he has received abroad. The gold boxes presented by Glasgow and Ayr and the Edinburgh silver box are among them.

LOCAL AFFAIRS.

—There was an aurora borealis last night.

—The steamer Eolus is all right today and making her usual trips.

—The wind blew at the rate of 44 miles an hour yesterday afternoon.

—Mr. F. G. Harris will return from England in the early part of next week.

—From 7 o'clock yesterday morning to 7 o'clock last night mercury the dropped 24°.

—The wooden building for the new Odd Fellows hall will cost $10,000 and the brick one $19,000.

—Rev. E. M. Smith will hold service in the First Methodist Church this evening at the usual hour.

—The ferry boat, Jamestown, was obliged to omit her afternoon trip yesterday, on account of the blow.

—The members of Aquidneck encampment, No. 5, I. O. O. F., organize a debating society this evening.

—One of the men arrested for drunkenness, Tuesday night, gave the name of John Twomey, but it appears that his real name is McCarty.

—There were but few arrivals of vessels yesterday. During the height of the gale the bark Bertha came in under bare poles, from New York.

—The members of the Newport Light Infantry gave a social at their armory last evening which, despite the state of the weather, was a success in every way. The music was furnished by the Fort orchestra.

—At the veteran re-union in Providence, last night, Col. S. R. Honey, of this city, responded to the toast—"The Regular Army—Its record is glorious, and in spite of all opposition, may its shadow never be less."

—On Friday evening Mr. John E. Owens appears at the Opera House, as Caleb Plummer in Dot, or Cricket on the Hearth, by Charles Dickens, dramatized by Boucicault. Mr. Owens is a talented and popular actor and will have good support in this city.

LECTURE TONIGHT.—The sixth entertainment of the Newport Lecture Association will take place this evening, the lecturer being Prof. E. C. Bolles of Salem, who, many will remember, lectured here two or three seasons ago. His subject will be "The Builders of the Earth," and he will illustrate it by the aid of a powerful microscope, throwing the views upon a large white screen upon the stage. A very interesting and instructive lecture may be looked for.

A POUND PARTY.

A very enjoyable occasion took place last evening at the residence of Mr. Anthony Stewart, Jr., on Pelham street. The entertainment was termed a pound party although in the early part of the evening the merry company were clad in sheets and pillow cases and enjoyed themselves in the terpischorean mazes. The packages which were brought were subsequently sold at auction by Mr. Lawton Coggeshall, who created no little merriment in his new found occupation. During the evening the following poem, written by Mr. Robert S. Barker, was read:—

What is a pound? Well, some one will say
'Tis a place to put cattle when they go astray,
But that is not it—for the writer announces
That a pound is composed of sixteen good ounces,
That is, if you wish to have a pure flour,
But twelve will do for the weight that is Troy.

Well! here are four ounces of candy—don't laugh,
For four nice nuts will make up the half,
So four more of cake will make quarters three,
And the last is made up of kisses, you see,
Which he who sends them, I firmly believe,
Will say are blessed to give and receive,
And if any young lady dispute the assertion,
I am ready tonight to attempt her conversion.

MISSING.

Last Monday Miss Lillie C. Kempton, a young lady 24 years of age, residing in Boston with her uncle, Mr. J. B. Sandford, went out, and not returning in the evening the family became somewhat alarmed, as it was an unusual occurrence for her to be absent so long without giving notice to her aunt. Upon entering her room a letter was found stating that she should not return that evening but would inform them on the following day as to the cause of her departure. On Tuesday a letter was received dated at Fall River, which stated that she was going to New York. Farther than this no tidings have been received from her, and it is thought that she has wandered off during a temporary aberration of mind.

Her friends visited Fall River and this city yesterday, trying to get some information, and our police are notified to be on the lookout. There is a chance of her having left the boat here.

Miss Kempton was of medium height; had auburn hair and brown eyes. She wore a black cashmere dress, a black cape trimmed with fur, and a plain black hat with feather. She was a member of the Shawmut choir, and also a teacher in the Sabbath school connected with Rev. Dr. Webb's church.

LITTLE COMPTON.

RELIGIOUS.—The churches in this town are enjoying more than the usual interest in divine things. The influence of the union meetings has been very marked and beneficial, and still greater results are anticipated.

THE CHURCH DIVORCE CASE.—The latest information as to the Church divorce case comes in a dispatch to the effect that it came up in court on the 19th inst., and occupied considerable attention, on a motion on the part of the lawyers of the late Mrs. Church to push the case to a sufficient hearing, that the court might decide as to whether or not Mrs. Church is liable for the fees, this, of course, depending upon the merits of the case, and the decision whether or not Mr. Church was justly entitled to the divorce applied for in her suit. The point now at issue is the question of filing certain depositions of Mr. Church's partner relative to his financial condition. Arguments were heard, and the case taken under advisement.

LADIES' SOCIAL AID SOCIETY.—The annual meeting of the above named society was held at their rooms in the Congregational Church on the evening of the 18th inst. Through the kindness of Captain Benjamin Seabury, a generous supply of oysters was provided.

The report of the secretary showed that the affairs of the society were in a prosperous condition. The following officers were elected for the ensuing year:

President—Mrs. Oliver C. Brownell; Vice President—Mrs. Walter Sherman; Secretary and Treasurer—Miss Clara Simmons; Collector—Mrs. Frank Brownell; Directors—Mrs. William D. Hart, Mrs. Henry T. Brown, Mrs. Alexander C. Simmons, Mrs. Ellery Hunt, Mrs. Joseph Slocum, Mrs. William Briggs.

TOWN COUNCIL AND COURT OF PROBATE,—At the regular monthly meeting of the Town Council and Court of Probate, held Jan. 14th, at the Town Clerk's office, President Brownell in the chair, the following business was transacted:

Request of Overseer of the Poor, for allowance towards coffin of Betsey Gifford, laid over until next council.

The Town Clerk was ordered to notify Phillip Simmons, Surveyor, to remove a rock from the highway near his house.

A new land evidence book was ordered.

The following bills were allowed and ordered paid:

Bill of Sarah T. Elliott, for boarding Betsey Gifford 9½ weeks, at $1 per week	$ 9 50
Bill of Little Compton Poor House to Smith & Manchester, for groceries	20 17
Bill of A. B. Simmons, Surveyor for District No. 8, for work	60
Bill of Dr. I. B. Cowee, for medicines furnished Asylum	2 55
Bill of Town Clerk, for six months	24 00
Bill of Assessors	6 00
Bill of Willard Beerey, Keeper of Town Asylum, for grain, &c	86 18
Quarterly salary	75 00

"CONSOLIDATED VIRGINIA."

This mine is located within two blocks of the main street of Virginia City, in the State of Nevada, on what is known as the northern end of the celebrated Comstock lode. The company was organized in 1867, the title of the claim being held by conveyance of the original mining location, as acquired under the regulations established in the Washoe district by its early miners; no United Stats patent having yet been taken out, as provided in more recent mining laws of the government. Commencing in the early part of 1869, a series of assessments were levied upon the stock amounting in all to $438,499 23, the fifteenth and last assessment of $2 per share having been levied June 11, 1873. In January, 1872, the control of the company passed into the hands of the firm of Flood & O'Brine, and one of the partners, James G. Fair, took the direction of the mining operation as superintendent. During the following year systematic prospecting was instituted and assessments amounting to $277,150 12 were collected to carry on these operations, which soon thereafter exposed to view the top of the bonanza of the Comstock. In twenty-eight months after the new management acquired the controlling interest in the property, during the first of which period it had contributed a little more than $2 50 per share for its operations, the flow of bullion began, and although the extravagant anticipations have not been realized by those whose fortunes were doubled in a day, and long continued to increase at astonishing ratio, till their excitement reached fever heat, yet the amount of precious metals thus distributed have given a new name to riches, and astonished the world. Con. Virginia commenced paying dividends in May, 1874, dividing $324,000 per month at the rate of $3 per share on its then capital of 108,000 shares. It increased the dividends to $10 per share monthly in March 1875, and from that time until January 1878 it divided the same sum, $1,080, per month, without interruption, reducing the amount per share however, to $2, with the increase of the number of its shares from 108,000 to 540,000 shares of nominal par value of $100 each. No dividends were paid during the first four months of 1877, by reason of the time needed to make repairs, improve the ventilation, and open up the ground.—[Boston Advertiser.

JAMESTOWN.

Isaac Potter's wind-mill was badly disabled by the high wind yesterday. The arms were blown off and considerable damage done. Mrs. Potter was near the mill at the time and narrowly escaped injury. The mill has been standing many years and is a land mark on the island.

WEEDS AND WHAT TO DO WITH THEM.

There are but few questions with which farmers have to do than those which relate to keeping the farm clear of weeds. It is a subject that is just now attracting a good deal of attention. As is well known a weed draws just as much nourishment from the soil as does a valuable plant, and wherever weeds grow there must be small crops, and in the end poor land. At a recent meeting of the Connecticut Board of Agriculture, the subject was discussed at length. We give a few extracts as reported in the New England Farmer:—

Mr. J. B. Olcott commenced by asserting that an acre of naturally good land is worth in New England a hundred dollars; if made rich by manure and cultivation, it is worth two hundred; if clear of weeds, three hundred, and then, if near a good market, and in the hands of an enterprising, wide-awake and intelligent young farmer, its valuation may safely be doubled. One of his neighbors claimed that his best acre of grass land pays the interest on a thousand dollars. Now, these may seem like high figures, but let this six hundred dollar land fall into the hands of a sleepy, lazy, ignorant apology for a farmer, and three hundred dollars of the capital is gone at a breath. Let it get weedy, and another hundred goes; then after cropping it a few years without giving anything back in return, and it is easy to see that it will not be worth anything. There is a great deal of such land in New England. It is worth nothing, and may be obtained for nothing. Buy the buildings, fences, markets and social connections, and the land will be thrown into the bargain.

Weed killing is not easy, but one cannot run away from weeds—he must fight it out on this line. One thing is in our favor, we have a first-rate climate for killing weeds, but we can't do it by hoeing them once a month. It is like combing a boy's hair once a week—it almost kills him. It is killing work for the man to try to kill weeds by two hoeings in a season. Formerly farmers didn't think much about weeds. He could remember when lousy heads were not rare curiosities in our public schools. It was then no disgrace to be lousy, but as civilization advances, and population increases, we have to be more nice. Lousy children are now turned out of school, and weedy farmers should be counted out of all good and respectable society. Farmers don't study the habits of weeds as they should, if they did, they would not fill their hog pens with weeds ripe with seeds, nor wonder how weeds came to start in the gravel thrown from the bottom of wells or cellars.

Before planting a field, the aim of the thorough weeder should be to make all the weed seeds sprout if possible. Cultivate the soil to bring the weed seeds to the surface, then roll, or otherwise press the surface to keep the land moist enough to sprout the seeds. A soil made too dry and light by cultivation will carry seeds a long while without sprouting them. Then cultivate again as soon as the seeds burst their covering. Even "pusley" can be killed in this way. He had sometimes found it more costly to weed a field of carrots or other roots, than to brush the land over, killing both weeds and carrots, and then re-sowing. Never set a near-sighted man to killing weeds.

Mr. Olcott is very particular in his methods of hoeing, and doubtless some of his neighbors call him a little "old maidish," before they understand the philosophy of the art, or reach his high standpoint. He would never leave a foot print behind him on the field or garden he is hoeing. The pressing of the foot sets the weeds out anew, and gives them encouragement to hold on. He uses a sandle hoe for much of the work, stands erect and takes it easy, and yet does the work of two men with ordinary hoes. He exhibits a stack of hoes of various patterns, such as he uses at home, all of them very light. Old fashioned hoes are entirely discarded in field or garden practice. He keeps one for cleaning manure from a cart, and, as he said, to give an air of antiquity to his place. To kill witch grass he had been over a field with cultivator and hoe twenty five times in a season, at less cost than it would have required for twice or three times hoeing in the ordinary way and the grass was killed too, which is something rare. Farmers should spread their work, cultivate one day and hoe the next, then they can see where to strike. Don't let a crop go till it gets ahead of the weeds. It never did, and it never can.

Prof. Brewer said that a single plant of mullein had been known to produce 600,000 seeds, and a yield of 100,000 was common. He also spoke of a specie of dodder that has obtained a foothold in Germany, which would be a serious pest here if it should happen to get into our soil. It is an air plant growing upon clover stems, from which it draws its sustenance without connection with the soil. It seems, at present, impossible to kill it.

At a recent Sunday school concert the superintendent was talking about idols, when, to ascertain whether the children were understanding what he was saying, he asked, "Children, what is an idol?" "Being lazy," was the loud and quick response of one of the members of the juvenile class.

Eastward the star of "Chinese cheap labor" takes its way. A great cafe proprietor on the Boulevards in Paris, encouraged by the accounts he has heard of Chinese handiness and moderation in respect of wages, is going to set up on the 1st of May a staff of ten waiters, engaged at Shanghai for seven years.

A tramp called at a house in State street, New Haven, recently, and asked for something to eat, but was refused. He went out and soon returned with a valuable watch dropped by a member of the family, which he had picked up in the yard. The family then fed and rewarded him.

BUSINESS NOTICES.

"GERMAN SYRUP."

No other medicine in the world was ever given such a test of its curative qualities as BOSCHEE'S GERMAN SYRUP. In three years two million four hundred thousand small bottles of this medicine was distributed *free of charge* by druggists in this country to those afflicted with consumption, asthma, croup, severe coughs, pneumonia and other diseases of the throat and lungs, giving the American people undeniable proof that GERMAN SYRUP will cure them. The result has been that druggists in every town and village in the United States are recommending it to their customers. Go to your druggist J. H. Taylor and ask what they know about it. Sample bottles 10 cents. Regular size 75 cents. Three doses will relieve any case.

OVERTASKING THE ENERGIES.

It is not advisable for any of us to overtask our energies, corporeal or mental, but in the eager pursuit of wealth or fame or knowledge, how many transgress this salutary rule. It must be a matter of great importance to all who do so to know how they can regain the vigor so recklessly expended. The remedy is neither costly or difficult to obtain. Hostetter's Stomach Bitters is procurable in every city, town and settlement in America, and it compensates for a drain of bodily or mental energy more effectually than any invigorant ever prescribed or advertised. Laboring men, athletes, students, journalists, lawyers, clergymen, physicians, all bear testimony to its wondrously renovating powers. It increases the capabilities for undergoing fatigue, and counteracts the injurious effects of exposure, sedentary habits, unhealthy or wearying avocations, or an insalubrious climate, and is a prime alterative, diuretic and blood depurent.

Consumption Cured.—An old physician retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this receipe in German, French, or English, with full directions for preparing and using. Sent by mail by addressing with a stamp, naming this paper, W. W. Sherar, 320 Powers' Block, Rochester, N. Y. jan15 4w

STUDY ECONOMY.—Throw not aside your soiled gloves, but renovate them with JOUVEN'S INDIAN-US THICK GLOVE CLEANER. 25 cents per bottle. nov13

IT IS NOW an acknowledged fact that CONSUMPTION CAN BE CURED. It has been cured in a very great number of cases (some of them apparently desperate ones) by Schenck's Pulmonic Syrup alone, and in others by the same medicine in connection with Schenck's Sea Weed Tonic and Mandrake Pills, one or both, according to the requirements of the case.

The old supposition that "Consumption is incurable," for many years deterred Physicians from attempting to find a remedy for that disease, and patients afflicted with it reconciled themselves to death without an effort being made to save them from a doom which was considered inevitable.

Dr. Schenck himself was supposed at one time to be at the very gate of death, his Physicians having pronounced his case hopeless and abandoned him to his fate: he was CURED by the aforesaid medicines and afterward enjoyed uninterrupted good health for more than forty years. Thousands of people have used Dr. Schenck's preparations with the same remarkable success.

Schenck's Almanac, containing a thorough treatise on Consumption, Liver Complaint, Dyspepsia &c., can be had gratis of any druggist, or of J. H. Schenck & Son, Philadelphia. Full directions for the use of Schenck's medicines accompanying each package.

Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are for sale by all druggists.

WONDER WORLD.

BY

MARIE PABRE and MARGERY DEANE.

ILLUSTRATED BY LUCY G. MORSE.

"Will not go a begging for children's favors."—[N. Y. Tribune.

"A fine collection of old stories which will be warmly welcomed in this translation."—[N. Y. Eve. Post.

"The field of selection is boundless, and it may well be imagined that the Wonder World stories contain a fresh assortment. They are all characteristic, and some eminently so, of the countries to which each is accredited. * * The volume shows excellent discrimination and being handsomely brought out, must be ranked with the foremost ventures of the present year. It merits a permanent sale long after the gift season has gone by."—[The Nation.

"A remarkable book—it is not, as has generally been supposed, a child's book, unless the Arabian Nights and Æsops Fables are to be regarded in that light. To relegate such a book to the nursery would be an injustice to lovers of the best in this peculiar field of literature, for while its stories delight children, its chief design—to bring into defined contrast the temperament, humor, sentiment, the salient individual and national characteristics and times described is admirably effected. * * * It is a wonderful story (The Hungarian) and would alone lift Wonder World above the ordinary level."—[Boston Globe.

* * Two women have brought together this little collection of which it may safely be said that not one is insignificant or wanting in amusing qualities. * * * It takes the pick of the fabulous lore of the whole world."—[Scribner's Monthly.

"Clear type, fine paper, pretty binding. * * * * Wonder World will prove a popular favorite, and a permanent addition to the lore of fairy land. The last story is alone worth the price of the volume."—[Christian Register.

"We heartily recommend this book."—[The Churchman.

"The translators are to be congratulated upon their arrangement of a volume as unique and valuable as it is delightful."—Portland Press.

"The wonder is where the translators found all these legends and fine stories."—Hartford Times.

"A source of perpetual delight to the lad and lassie fortunate enough to possess it."—[Fort Wayne Sentinel.

SUNDRIES.

He gave his youngest son a box of tools and a quart bottle of mucilage. And now he thinks it is his turn to treat himself. He is treating himself to a new carpet, a parlor table, several rolls of wall-paper and a yard section of rattan.

Consolation.—Inebriate—"Now, look here what I shay is, what's the use o' riches? 'Spose a man's a Roth—you know—a Rothschild's bank, eh? well, what's the good of it? He can't get more drunk than he can—now, can he?"

Phœbe Colman, a negress living at Chicago six months ago, was 119 years old and beginning to fail, but she fell down stairs twice and had a paralytic stroke, and now she has gone to meet Methuselah and the Countess of Ormond.

"Will you always trust me, dearest?" he asked, looking down into her great blue eyes with unspeakable affection. She was a saleswoman at an up town shirt store, and she told him business was business, and he'd have to pay cash every time.

About twenty miles from the city of New-York, on the Jersey side, you fiend this practical advice graven on the tombstone of an early Dutch settler:

"You'd better go home and dry your tears,
For I shall stay here a thousand years."

How is it that people can never see for themselves what is in the newspapers? You may bet you boots that if any one has occasion to write to a newspaper about something personal to himself, he will commence, "Sir, my attention has been drawn," etc. [Ex.

A Paris correspondent relates the following: A wag, M. Romieu, occupied a second story of a house on the Boulevard des Capucines; on the first story, a lady before going to church put her vase of gold fish in the balcony to enjoy the sun; Romieu took a line, caught all the fish, fried them beautifully, coverd them with parsley, placed them on a sheet of paper, let them down on the balcony, with this note; "Consequence of being exposed to the sun."

THE WEEKLY

SPRINGFIELD REPUBLICAN!

The best General Weekly Newspaper in America.

FOUNDED IN 1824

—BY—

SAMUEL BOWLES.

THE WEEKLY REPUBLICAN is made up with especial care for a general circulation, and may fairly claim to be the best eclectic weekly newspaper in the country. It offers itself especially to politicians and scholars, to New Englanders, at home or in distant parts of the country, and to Americans abroad, as giving, in a single sheet, a more comprehensive and impartial summary of general New England and American news, and fuller and more independent discussion of all prominent topics of American life, and a more varied picture of our literary, art and social progress, than can be found anywhere else.

Subscription Rates; $1.00 for six months; $2.00 a year; two copies to one address, $3.50; three copies $5; five or more copies, $1.50 each.

☞ Special cash commission to active local agents. Specimen copies free. Checks and postoffice orders to be made to Samuel Bowles, otherwise, address

THE CONTENTS

ARE GATHERED FROM THE COLUMNS OF THE

DAILY NEWS.

AND CAREFULLY ARRANGED WITH SPECIAL REGARD TO THE WANTS OF READERS IN CITY OR COUNTRY WHO WANT A

GOOD NEWPORT PAPER

BUT WHO DO NOT TAKE A DAILY FROM THIS CITY

Let the JOURNAL be compared with any other weekly paper published in the south part of the state and its superiority in the quantity and quality of its contents, particularly in its news departments, will be at once seen. In it are found every week all the minor matters of local news and reports of entertainments, meetings, celebrations, etc., in Newport and vicinity that in fullness and excellence will compare favorably with reports in the papers of larger cities.

We state not so much an opinion as a fact, that will become apparent to any disinterested person who compares it with other papers, when we say that, for all residents of Newport county and all persons who have moved out of the county but wish to keep posted regarding affairs at their old home, the best paper without exception

Testimonials.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON, Commissioner of Patents."

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the patent office.

EDMUND BURKE, late Commissioner of Patents."

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—Dear Sir: you procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Yours truly,

GEORGE DRAPER.

BOVININE

OR

CONCENTRATED

BEEF JUICE.

For purposes of nourishment "Bovinine" is fast taking the place of "Beef Extracts." Where the better united to the most delicate patients, with happiness and those suffering from debility or low state of the system, derive great benefit from its use, in cases of Poverty of Blood, accompanied by General Debility, this invigorating preparation is peculiarly adapted. Physicians, after several months' trial, pronounce it one of the best articles of nourishment they have ever seen; it containing the chief essentials, in a form palatable and easily absorbed without taxing the digestive organs, and also being entirely free from any drug, they have no hesitation in recommending its use.
